The Barrington Area Conservation Trust's (BACT)'s second annual highlander-themed event, Tartans for the Trust, was held on August 29 at the Sanfilippo Estate. In full compliance with state guidelines for social distancing and safety, the outside event capped attendance at 50 persons, while a virtual event was hosted simultaneously via livestreaming with raffle prize drawings in real time. Founded in 2001 by Mary Bradford-White, BACT's mission is to preserve the open space, rural character, and scenic, recreational, and natural resources of the Barrington communities.
